PROJECTS

XPNS app

Built a responsive MERN app where users can track and manage daily spendings and incomes instantly with minimum effort.

[<github code />](#) 

- Built a REST API using NodeJS / ExpressJS, and MongoDB with Mongoose schemas. Client-side is a basic CRUD application built with ReactJS.

Marvel Comic Book

E-commerce web app where a user can search for a comic book and add it to the cart. Also modify and remove it from the cart.

[<github code />](#) 

- Developed a responsive E-commerce website that queries and tabulates data from an API based on user search parameters.
- ReactJS, Bootstrap 4, Jest, Enzyme.

FitTracker App

MERN app where a user can create an account and list of exercises as needed. Also this app is beginner friendly and contains essential exercises guide with animated pictures in a grid.

[<github code />](#) 

- Built RESTful API that stores JSON exercise logs to database.
- ReactJS, Bootstrap 4, NodeJS, ExpressJS MongoDB
